

PRAVEEN S V

Java Full Stack Developer

praveensv0007@gmail.com | +91 8903253146 | Nagercoil, Tamil Nadu | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) |

PROFESSIONAL SUMMARY

Aspiring Java Full Stack Developer with a strong foundation in Java, HTML, CSS, JavaScript, jQuery, and Bootstrap, and currently enhancing backend development skills with Spring Boot and JDBC. Possesses strong problem-solving and analytical abilities, demonstrated through hands-on projects and continuous learning. Seeking an opportunity to apply technical skills, contribute to real-world software development projects, and grow as a full stack developer in a dynamic environment.

EDUCATION

B.E in Electronics and Communication Engineering, Minor B.Tech in Artificial Intelligence

Ponjesly College of Engineering

CGPA: 7.9/10

2022 – 2026 | Nagercoil, Tamil Nadu

TECHNICAL SKILLS

Programming Languages: Java

Frontend Technologies: HTML, CSS, Bootstrap

Frontend Libraries: jQuery, React

Backend Technologies: Core Java

Backend Frameworks: Spring Boot

Core Concepts: OOP, Collections, Exception Handling, Multithreading

Database Technologies: SQL, JDBC (Learning)

Version Control: Git, GitHub

Tools & Platforms: VS Code, Eclipse IDE

Operating System: Windows 11

PROJECTS

ResQ - Disaster Management Web Application

Technologies: HTML, CSS, JavaScript, Bootstrap

- Developed responsive web pages for reporting disasters and SOS alerts.
- Implemented location sharing using the browser's Geolocation API.
- Added form validation and interactive features to improve user experience.
- Integrated weather information and emergency resources to assist users during disaster situations.

AgroVision – Smart Agriculture Web Application

Technologies: HTML, CSS, JavaScript, Bootstrap

- Developed a responsive web portal providing crop information, market updates and government scheme details.
- Implemented interactive search features, animations and reusable UI components for better user experience.
- Designed a modern agriculture-themed interface using Bootstrap, glassmorphism effects and responsive layouts.
- Added farming resources including cultivation tips, seasonal information and farmer support content.

AuthGuard - Secure Login Monitoring System

Technologies: Java, File Handling, Collections Framework

- Developed a console-based Secure Login Monitor application using Java without JDBC.
- Implemented user registration, authentication, login validation, and account locking after three failed login attempts.
- Created login activity tracking and security alert generation using file handling for data storage.
- Utilized Java Collections such as HashMap and ArrayList to efficiently manage user data and login records.

EduTrack - Student Management System

Technologies: Java, OOP, Scanner

- Developed a console-based application to store and display student details.
- Designed a menu-driven application for managing student information using object-oriented programming principles.
- Implemented functionalities to add, search, update, and display student records efficiently.

BookNest - Library Management System

Technologies: Java, OOP, Encapsulation

- Developed a library management application for book issue and return operations.
- Implemented book issue, return, and availability tracking functionalities.
- Created a menu-driven system for basic library functions.

TRAINING & INTERNSHIPS

Java Full Stack Development Trainee, IPCS GLOBAL

01/2026 – 09/2026

- Gaining hands-on experience in HTML, CSS, JavaScript, jQuery, Bootstrap, Core Java, OOP, Exception Handling, Collections, JDBC, MySQL, and Spring Boot.
- Developing frontend and backend programming skills through practical exercises and projects.
- Worked on hands-on exercises and projects involving frontend, backend, database, and application development.

Smart Meter Communications Intern, Inesh Smart Energy (P) Ltd

07/2025 – 08/2025

- Assisted in IoT-based smart meter communication and real-time monitoring workflows.
- Supported software integration activities for smart energy management systems.

MERN Stack Development Intern, Srishti Innovative Educational Services

09/2024 – 09/2024

- Completed a one-week internship focused on frontend web development and Git-based version control workflows.
- Worked with HTML, CSS, JavaScript, and collaborative development practices.
