

PRAVEEN S V

Java Full Stack Developer

praveensv0007@gmail.com | 8903253146 | linkedin.com/in/praveensv007 | github.com/praveensv007

PROFESSIONAL SUMMARY

Aspiring Java Full Stack Developer with a strong foundation in Java, HTML, CSS, JavaScript, jQuery, and Bootstrap, and currently enhancing backend development skills with Spring Boot and JDBC. Possesses strong problem-solving and analytical abilities, demonstrated through hands-on projects and continuous learning. Seeking an opportunity to apply technical skills, contribute to real-world software development projects, and grow as a full stack developer in a dynamic environment.

EDUCATION

B.E in Electronics and Communication Engineering, 2022 – 2026

Minor B.Tech in Artificial Intelligence

Ponjesly College of Engineering

CGPA : 7.6/10

HSC in Computer Science (12th), SRKBV Matriculation Hr. Sec. School 2022

Score : 87%

SSLC (10th), SRKBV Matriculation Hr. Sec. School 2020

Score : 94%

TECHNICAL SKILLS

Programming Languages

Java

Frontend Technologies

HTML, CSS, Bootstrap

Frontend Libraries

jQuery, React(Learning)

Backend Technologies

Core Java

Backend Frameworks

Spring Boot(Learning)

Database Technologies

SQL, JDBC(ongoing)

Core Concepts

Object-Oriented Programming (OOP), Collections, Exception Handling, Multithreading

Version Control

Git, GitHub

Tools & Platforms

VS Code, Eclipse IDE

Operating Systems

Windows 11

PROJECTS

ResQ - Disaster Management Web Application

Technologies : HTML, CSS, JavaScript, Bootstrap

- Developed a responsive web pages interface for reporting disaster and SOS alerts.
- Implemented location sharing using the browser's Geolocation API.
- Added form validation and interactive features to improve user experience.
- Integrated weather information and emergency resources to assist users during disaster situations

AuthGuard – Secure Login Monitoring System

Technologies : Java, File Handling, Collections Framework

- Developed a console-based Secure Login Monitor application using Java without JDBC.
- Implemented user registration, authentication, login validation, and account locking after three failed login attempts.
- Created login activity tracking and security alert generation using file handling for data storage.
- Utilized Java Collections such as HashMap and ArrayList to efficiently manage user data and login records.

MoneyMatrix - Bank Management System,

Technologies : Java, OOP, Scanner

- Built a banking application with deposit, withdrawal, and balance display features.
- Implemented secure account management features, including deposits, withdrawals, and balance inquiries using OOP principles.
- Designed a menu-driven console interface for account operations.

EduTrack - Student Management System,

Technologies : Java, OOP, Scanner

- Developed a console-based application to store and display student details.
- Designed a menu-driven application for managing student information using object-oriented programming principles.
- Implemented functionalities to add, search, update, and display student records efficiently.

BookNest - Library Management System

Technologies: Java, OOP, Encapsulation, Scanner

- Developed a library management application for book issue and return operations.
- Implemented book issue, return, and availability tracking functionalities to streamline library operations.
- Created a menu-driven system for basic library functions.

TRAINING & INTERNSHIPS

JAVA FULL STACK DEVELOPMENT TRAINEE, *IPCS GLOBAL*

01/2026 – 08/2026

- Gaining hands-on experience in HTML, CSS, JavaScript, jQuery, Bootstrap, Core Java, OOP, Exception Handling, Collections, JDBC, MySQL, and Spring Boot.
- Developing frontend and backend programming skills through practical exercises and projects.

SMART METER COMMUNICATIONS INTERN, *Inesh Smart Energy (P) Ltd*

07/2025 – 08/2025

- Assisted in IoT-based smart meter communication and real-time monitoring workflows.
- Supported software integration activities for smart energy management systems.

MERN STACK DEVELOPMENT INTERN, *Srishti Innovative Educational Services*

09/2024 – 09/2024

- Completed a one-week internship focused on frontend web development and Git-based version control workflows.
- Worked with HTML, CSS, JavaScript, and collaborative development practices.
